- Upload latest notification of formation of IQAC [View File](#)

9. No. of IQAC meetings held during the year **3**

- Were the minutes of IQAC meeting(s) and compliance to the decisions have been uploaded on the institutional website? **Yes**
- If No, please upload the minutes of the meeting(s) and Action Taken Report No File Uploaded

10. Whether IQAC received funding from any of the funding agency to support its activities during the year? **No**

- If yes, mention the amount

11. Significant contributions made by IQAC during the current year (maximum five bullets)

Quality Assurance: IQAC helps in developing a quality system for the institution, including academic and administrative activities.

Accreditation: IQAC prepares the institution for accreditation processes by agencies like NAAC and NBA, which can significantly enhance the institution's reputation and credibility. IQAC assists in the development and implementation of the institution's Annual

Quality Assurance Report (AQAR).

Continuous Improvement: IQAC promotes a culture of continuous improvement by conducting various academic and administrative audits, feedback analysis, and implementing necessary actions.

Faculty and Staff Development: IQAC facilitates various faculty and staff development programs to enhance their teaching, research, and administrative skills. IQAC identifies and promotes best practices in teaching, learning, and governance, which can be adopted by the institution for overall improvement. IQAC encourages and supports research and innovation activities among faculty and students, leading to new knowledge creation and dissemination.

Student Support: IQAC works towards improving student support services, including counseling, mentoring, and other student welfare activities.

12. Plan of action chalked out by the IQAC in the beginning of the Academic year towards Quality Enhancement and the outcome achieved by the end of the Academic year

Plan of Action	Achievements/Outcomes
Curriculum Enhancement	Successfully revised and updated curricula in line with industry and academic standards, incorporating feedback from stakeholders. Faculty expertise in specific domains of the college has contributed in restructuring / revision/syllabus development as member of Board of Studies.
Social extension activities	Organized blood donation camps, Swachh Bharath and other social awareness programmes with student club co-ordinators.
Curricular and Extracurricular activities	Funds are granted to conduct various Extracurricular activities like KMIT evening, Dandiya night, patang Utsav and other club activities. Students participated in various co-curricular activities in the campus and at other institutes
Infrastructure Development	Initiated infrastructure development projects resulting in improved facilities for students and faculty, enhancing the overall learning environment.
Orientation and Induction Programme for Newly Admitted Students	Organized Orientation Programme for first year students, in which code of conduct of the college for students, various curricular and extracurricular facilities available in the institute, coordinators of important committees i.e. student's grievances redressal cell, anti-ragging cell, woman cell, NCC, NSS have been informed.

Sports	The college invested in upgrading sports facilities such as playgrounds, and sports equipment, providing students with better training opportunities. With dedicated physical directors, the college implemented structured training programs for various sports, focusing on skill development and physical fitness. The presence of dedicated physical directors motivated more students to participate in sports, leading to increased participation rates in intercollegiate and intramural sports events. The sports achievements of the college received recognition and awards at the regional and national levels, enhancing the college's reputation in sports.
Project School Initiative	The project school aims to provide students with practical, real-world experience by working on industry-relevant projects. It seeks to enhance their problem-solving skills, teamwork abilities, and overall readiness for the workforce. Participation in the project school enhances students' job prospects, as they gain practical experience and skills that are highly valued by employers.
Research and Innovation	Encouraged research and innovation resulting in increased research output, publications, and collaborations with industry and academia. Faculty published papers in reputed journals and conferences. Incentives to

	faculty for research publications are granted. Received grants from various funding agencies which provided a significant boost to research and innovation efforts. It not only validated the importance and potential impact of our work but also provided the resources needed to carry out our projects.
Introducing Innovation, incubation and Entrepreneurship centre	KMIT has embarked to foster innovation and drive transformative growth. We have entered into a strategic partnership with T-HUB Telangana, India's leading incubator for startups, and renowned Indian Institutes of Technology (IITs), known for their cutting-edge research and academic excellence. This collaboration aims to establish a robust ecosystem that promotes innovation, knowledge exchange, and entrepreneurial development within our institution. By leveraging the expertise, resources, and networks of T-HUB and the IITs, we seek to provide our students, faculty, and staff with unparalleled opportunities for growth, learning, and collaboration. The key objectives of this collaboration are as follows: 1. Innovation Hub Development: Together with T-HUB and the IITs, we will work towards strengthening and expanding our existing Innovation Hub. This hub will serve as a dynamic platform for fostering innovative thinking, cross-disciplinary collaboration, and the creation

of commercially viable solutions to real-world challenges.

2. Entrepreneurship and Incubation Support: Our collaboration will enable us to establish a comprehensive entrepreneurship support system, providing guidance, mentorship, and access to resources for aspiring entrepreneurs within our institution. We aim to nurture innovative startup ideas and facilitate their incubation, accelerating their growth and potential for success.

3. Research Collaborations: By partnering with the IITs, renowned for their research excellence, we will foster research collaborations that explore emerging technologies, address societal challenges, and drive innovation in various fields. This collaboration will open up avenues for joint research projects, funding opportunities, and knowledge-sharing among our faculty and researchers.

4. Industry Connect and Partnerships: Through the combined network of T-HUB, the IITs, and our institution, we will establish and strengthen collaborations with industry partners, startups, and investors. This will facilitate internships, industry mentorship programs, and industry-driven research projects, creating a bridge between academia and industry for mutual growth and innovation.

13. Whether the AQAR was placed before statutory body?

Yes

15.Multidisciplinary / interdisciplinary	
At KMIT, we are deeply committed to providing education that is not only relevant but also responsive to the rapidly changing needs and challenges of society. Our commitment is reflected in our innovative programs and initiatives, which are designed to equip our students with the knowledge, skills, and mindset needed to succeed in a dynamic and evolving world. Through a combination of theoretical learning and practical experience, we strive to prepare our students to be future-ready and to make meaningful contributions to society. Join us in our mission to shape the future of education and empower the next generation of leaders and change-makers. At our institution, we take pride in offering flexible and innovative curricula that are designed to meet the diverse needs of our students. Our programs include credit-based courses and projects in areas such as community engagement, environmental education, and values-based learning. These initiatives are aimed at providing our students with a holistic and multidisciplinary education that prepares them to address the complex challenges of today's world. We are committed to nurturing well-rounded individuals who are not only academically proficient but also socially responsible and ethically aware. At KMIT, we embrace a multidisciplinary and interdisciplinary approach to education, aiming to provide our students with a holistic learning experience that goes beyond traditional boundaries. Our approach is supported by several key initiatives: Project School: Our Project School is a unique program that allows students to work on real-time projects, giving them hands-	

on experience and enabling them to apply their theoretical knowledge in practical settings. This immersive learning experience helps students develop critical skills such as problem-solving, teamwork, and project management. **Finishing School:** The Finishing School program at KMIT is designed to bridge the gap between academia and industry by providing students with job training, placements, and internship opportunities. Through this program, students gain valuable insights into the professional world and develop the skills needed to excel in their careers. **Imagineering School:** The Imagineering School is dedicated to fostering innovation, incubation, and entrepreneurship among our students. This program encourages students to think creatively, develop innovative solutions to real-world problems, and explore entrepreneurship as a career path. Through the Imagineering School, we aim to cultivate a culture of innovation and entrepreneurship among our students, empowering them to become future leaders and change-makers. Together, these initiatives form the backbone of our multidisciplinary and interdisciplinary approach to education, ensuring that our students are well-equipped to meet the challenges of the modern world and make a positive impact in their chosen fields.

16.Academic bank of credits (ABC):

KMIT values academic autonomy, which empowers faculty members to design curricula with utmost freedom. Subject coordinators have full flexibility in creating curricula, suggesting textbooks. Our students have the opportunity to earn credits from a variety of Massive Open Online Courses (MOOCs) and online platforms like Swayam/NPTEL. These earned credits are eligible for transfer, providing a flexible and innovative approach to learning. Students can earn credits by successfully completing online courses, which can then be transferred towards their degree at KMIT.

Curriculum Development Process:

- 1. Course File Preparation:** Assessments and assignments are proposed by subject coordinators as part of the course file preparation process.
- 2. Framework:** The academic regulations and credit structure serve as a framework for developing course content, assessment methodologies, and pedagogical approaches.

Guiding Principles for Curriculum Preparation:

- Holistic Student Development:** The curriculum is designed to foster holistic development, encompassing academic, personal, and professional growth.
- Experiential Learning:** Emphasis is placed on experiential learning, allowing students to apply theoretical knowledge in practical settings.
- Flexibility in Course Choices:** Students are given the flexibility to choose courses (open electives and Professional electives) based on

their interests and career goals, promoting personalized learning pathways. **Curricular Integration of Essential Subjects, Skills, and Capacities:** The curriculum integrates essential subjects, skills, and capacities required for students to excel in their chosen fields.

17.Skill development:

Our Finishing School program at KMIT is a comprehensive skill development initiative designed to bridge the gap between academia and industry. Through a series of workshops, seminars, internships, and hands-on projects, students are equipped with the practical skills and knowledge needed to succeed in today's competitive job market. The program focuses on a wide range of skills, including communication, teamwork, problem-solving, leadership, and technical skills specific to their field of study. Additionally, the Finishing School offers industry-specific training and certifications, ensuring that students are well-prepared to meet the demands of the workforce. By participating in the Finishing School program, students not only enhance their employability but also gain valuable insights into the professional world, making them confident and competent professionals upon graduation.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

At KMIT, we strive to create a learning environment where academic knowledge and cultural growth are equally valued. Through our cultural events, we encourage students to engage with the community and develop a sense of social responsibility. This engagement helps students apply their academic knowledge to real-world issues and fosters a sense of empathy and understanding. We believe that art and cultural activities stimulate intellectual curiosity and creativity, which are essential for academic success. Students who actively participate in cultural events often exhibit improved academic performance and a greater passion for learning. KMIT celebrates the rich cultural heritage of India through various art and culture events. These celebrations not only promote Indian traditions but also provide students with a platform to showcase their talents and engage with the community. Some of the key cultural celebrations at KMIT include: 1. **Bathukamma:** Bathukamma is a floral festival celebrated by the women of Telangana. At KMIT, Bathukamma celebrations are organized, where students participate in the traditional ritual of arranging floral stacks and dance around them, celebrating the spirit of womanhood and Telangana's culture. 2. **Dandiya Night:**

Dandiya Night is a vibrant event where students dress in traditional attire and participate in the traditional dance form of Dandiya Raas. The event is filled with music, dance, and colorful attire, creating a festive atmosphere on campus. 3. Patang Utsav: Patang Utsav, or the Kite Festival, is celebrated with great enthusiasm at KMIT. Students fly kites of various colors and designs, symbolizing the spirit of joy and togetherness. The festival promotes creativity and teamwork among students. These art and culture celebrations at KMIT not only provide a glimpse into India's diverse cultural heritage but also foster a sense of community and unity among students. Through these events, KMIT aims to promote cultural exchange and appreciation among its students, preparing them to be global citizens with a deep respect for their roots.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

At KMIT we continue to enhance our educational practices. Outcome Based Education (OBE) at KMIT is a student-centric approach that emphasizes defining learning outcomes before designing the curriculum, ensuring that our students gain the knowledge, skills, and abilities necessary for their future success. Our implementation of OBE includes:

Clear Learning Outcomes: We have defined clear and measurable learning outcomes for each program and course, ensuring that students understand what is expected of them and what they will achieve by the end of their studies.

Curriculum Alignment: Our curriculum is aligned with these learning outcomes, with each course designed to help students achieve the desired competencies and skills.

Assessment Practices: We use a variety of assessment methods, including exams, projects, and presentations, to assess student performance and ensure that they are meeting the defined learning outcomes.

Continuous Improvement: We regularly review our programs and courses to ensure that they remain up-to-date and relevant, making improvements based on feedback from students, faculty, and industry partners.

Student-Centered Approach: OBE puts students at the center of their learning journey, empowering them to take ownership of their education and develop the skills they need to succeed in their chosen field. We believe that OBE is essential for preparing our students for the challenges of the future, and we are committed to providing them with the best possible education.

20.Distance education/online education:

KMIT offers online education through several platforms: KMIT Vista: This is a platform for online education provided by KMIT

through youtube. It likely includes various online courses and lectures. Tessellator Online Tool for Coding: Tessellator is a tool for coding practice and learning. It could be a platform for students to practice coding exercises and improve their coding skills. kmitonline.com: This is likely the official website of KMIT for online education. It probably serves as a portal for students to access online courses, resources, and other educational content. Tesseract: It is an online learning platform that fosters student-faculty interaction, assists teachers in conducting online assessments, and offers a variety of resource materials such as PDFs and videos for student learning, thus enabling students to learn independently even in the absence of direct teacher supervision. These platforms collectively offer a range of online educational resources and tools for students at KMIT.

Part B

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

Keshav Memorial Institute of Technology (KMIT), with autonomous status since 2020, maintains a dynamic curriculum, reflecting the latest trends in technology and industry requirements. The institution adheres to the guidelines set by the All India Council

for Technical Education (AICTE) and the affiliating university, Jawaharlal Nehru Technological University, Hyderabad (JNTUH). KMIT's curriculum and development approach are aligned with industry requirements and global trends, providing students with a comprehensive learning experience that prepares them for successful careers in the field of technology. Through its OBE framework, industry-oriented curriculum, and focus on holistic development, KMIT stands out as a leader in technical education, nurturing future-ready professionals

Curriculum Design:

- **Outcome-Based Education (OBE):** KMIT has adopted an Outcome-Based Education approach, incorporating Program Educational Objectives (PEOs), Program Outcomes (POs), Program Specific Outcomes (PSOs), and Course Outcomes (COs). This framework ensures that the curriculum is designed to meet specific learning objectives and industry demands.
- **Industry-Oriented Curriculum:** The curriculum is designed to bridge the gap between academia and industry, offering courses such as Cloud Computing, Competitive Programming, Blockchain Technology, AI, Deep Learning & ML, Natural Language Processing, and Big Data with Hadoop and Spark. These courses are integrated as professional core, elective, and mandatory courses, providing students with a solid foundation in advanced technologies
- **Dynamic Curriculum:** The curriculum is constantly updated to reflect the latest advancements in technology and industry trends, ensuring that students are prepared to meet the demands of the rapidly evolving tech landscape.

Upload relevant supporting document	View File
Link for Additional information	https://www.kmit.in/academics/syllabus.php

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

Keshav Memorial Institute of Technology (KMIT), after attaining autonomous status in 2020, has implemented a unique approach to managing its academic calendar and teaching methodology, ensuring a well-rounded educational experience for its students.

Academic Calendar:

- **JNTUH Affiliation:** For the fourth year, KMIT follows the Jawaharlal Nehru Technological University, Hyderabad (JNTUH) Academic calendar, as this batch is affiliated to JNTUH.
- **Autonomous Calendar:** For the second, third, and first years, KMIT follows its autonomous calendar, allowing for flexibility in scheduling and curriculum design to meet the specific needs of the institution and its students.

Teaching Methodology:

- **Lesson Planning:** Before the commencement of each semester, course coordinators prepare lesson plans that include course objectives and outcomes. These plans are dually approved by the module coordinator and the Head of the Department, ensuring alignment with academic goals and standards.
- **Feedback Mechanism:** KMIT emphasizes continuous improvement in teaching quality. To achieve this, feedback on every subject is collected every fortnight by the module coordinators. Areas highlighted by students are then shared with the respective faculty members to enhance their teaching effectiveness.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

Methodologies to support weak students and encourage advanced learners

Guidelines to identify weak students

The Mentors regularly conduct meetings regarding progress of their mentees and are responsible to identify students who scored less than 60% marks in their internals. Under the directions of program coordinator, the students' Mentor monitors the progress of those students who score below 60% marks in three or more subjects.

1. Student Mentors follow their progress regularly advising students about attending classes, making up classes missed, and getting additional help.
2. Remedial classes are conducted.
3. Diploma students who entered with less basics of mathematics and programming essentials Bridge courses are conducted.
4. Students having poor performance in Tesselator courses Exercises are uploaded on Telescope for additional practice. (so that they can solve the problems at home)
5. Notes, FAQ's, MCQ's, Model Question papers are provided.

Guidelines to identify Advanced students

Actions taken Those students who excel in day-to-day evaluation are encouraged to participate in inter college national/ international fest. Made them globally competent to participate in worldwide coding competitions like IEEE extreme competition, ACM ICPC, Google code jam, etc. Advised to be on board of student council which enriches their management skills.

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

KMIT greatly emphasizes on the quality of the teaching-learning process by adopting various methodologies. The main objective of student-centric methods in the teaching and learning process is to facilitate both the learners and teachers to compete professionally by understanding the essence of the learning concepts. The figure below depicts the student-centric teaching-learning methods which are adopted in KMIT.

Experiential Learning:

KMIT gives great importance to Experiential learning, a pedagogy in which the learners are more focused on doing things thereby learning the fundamental and advanced engineering key concepts. To emphasize experiential learning, laboratory courses, theory with practical courses are offered. KMIT has state-of-the-art laboratories, used by students to get their theoretical concepts experienced through practice.

Participative learning:

KMIT promotes Participative Learning to ensure and empower the understanding of the engineering concepts and to make effective utilization of the teaching resource as well. Wi-fi-enabled campus and remote access to the library help in seamless online learning.

Problem-based Learning: The course curriculum is designed to improve student's problem-solving skills by expanding the knowledge base, developing the spirit of inquiry, and refining analytical skills, intellectual creativity, technical dexterity, and professional competence of students.

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write description in maximum of 200 words

KMIT ascribes great importance to quality enhancement in the teaching-learning process which is ensured by the teaching and learning Policy. The teaching and learning environment in KMIT are augmented with ICT-enabled teaching methodologies, which are widely adopted by 100% of faculty members in all the courses taught by them.

- Information & Communications Technology (ICT) enabled teaching methodologies using cuttingedge technology, are being followed by the faculty members in classrooms and seminar halls.
- The faculty members effectively utilize Audio-Visual aids, to demonstrate the concepts to the students using the resources from the National Programme on Technology Enhanced Learning (NPTEL) to enhance the learning experience. The credits will be transferred to the students upon completing the online courses through NPTEL and other sources.
- Interactive teaching tools like Tesselator(LMS) and Google classroom are extensively used to conduct quizzes, solve programming questions and to give assignments, by the faculty to assess the performance of the student. the online platform enables teachers to conduct online classes, boot camps in evenings and to students to practice programming exercises at home. High quality e-content like unit wise notes, MCQ's, animations, lab programs as per syllabus and

beyond syllabus, previous question papers, model question papers are also uploaded on Telescope.

- Apps and applications used by the teacher
- KMITRA
- Tessler (LMS)
- Sanjaya App
- Drona App
- Netra App

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

The mechanism of internal assessment is designed to be transparent and robust, ensuring fair evaluation of students' performance. The assessment is structured throughout the academic year, with regular intervals such as internal examinations, quizzes, assignments, and presentations. The assessment framework typically allocates specific weightage to different components such as exams, assignments, projects, and class participation. This distribution is communicated to students upfront, providing clarity on the relative importance of each assessment type in determining final grades.

Transparency is maintained through clear communication of assessment criteria, grading rubrics, and performance expectations at the beginning of each course. The assessment mechanism is designed to be flexible, allowing adjustments based on the evolving needs of students and the academic environment. It adapts to diverse learning styles and challenges, ensuring inclusivity and equity in evaluation.

Also, feedback mechanisms are established to provide students with constructive comments on their strengths and areas for improvement. A robust feedback loop wherein students receive constructive feedback on their performance promptly after each assessment. This feedback is actionable, highlighting areas of improvement and guiding students towards academic excellence which fosters a culture of accountability and encourages students in their learning process.

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time- bound and efficient

The college outlines a clear policy detailing the process for lodging and resolving examination-related grievances. This policy is made readily available to students through the college website or notice boards.

Grievance Redressal Cell established within the college administration is responsible for receiving, documenting, and

resolving examination grievances from students in a fair and impartial manner. Students are provided with a structured process for submitting grievances which involves filling out a standardized grievance form or submitting grievances through an online portal. The college resolves examination grievances within a stipulated timeframe ensuring that grievances are addressed promptly, minimizing disruptions to students' academic progress. Clear and timely communication is maintained with the student who lodged the grievance. Updates on the status of the investigation and resolution timelines are provided to ensure transparency and keep the student informed.

Once the investigation is complete, the Grievance Redressal Cell makes a fair and equitable decision based on the findings. If the grievance is found to be valid, appropriate remedial measures are implemented, which may include reevaluation of the examination, correction of errors, or other corrective actions. Following the resolution of grievances, students are encouraged to provide feedback on their experience with the grievance redressal process. Which helps in identifying areas for improvement and ensuring continual enhancement of the grievance redressal mechanism.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

Communication to the Students:

- The POs and PSOs of all programmes are printed in the College Manual which is provided to all students .
- POs, PSOs and COs of all the programmes are displayed on the College website.
- PSOs and COs of respective programmes and courses are published on the departmental portal.
- POs, PSOs are displayed on the Notice Boards Soft copies of

syllabus with PSOs and COs are shared with the students through Learning Management System, mail by individual Faculty.

- Hardcopy of the syllabi with POs, PSOs and COs is maintained in every department for ready reference During the Students Induction Programme, POs and PSOs are
- explained to the new admissions extensively in detail Teachers who offer various courses explain the relationship of each course outcome with POs and PSOs at the beginning of semester.
- Curricular and co-curricular activities are organized in congruence with the Vision, Mission, POs and PSOs

Communication to the Faculty:

- The faculty are primarily involved in the drafting of POs, PSOs and COs takes place during therevision/drafting of the syllabus and thus have very good awareness on the same.
- The POs, PSOs and COs are communicated to the faculty through orientation programmes, Institutional faculty development programmes and departmental council meetings

Communication to other stakeholders:

- The alumni and employers are communicated with the POs, PSOs and COs through the college website.
- The parents are given awareness on the Programme Outcomes and OBE paradigm During orientation program and Parent Teacher Meetings.

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

Course Outcomes are measurable performance indicators which outline what students will achieve and be able to do by the end of the course. These quantify student skills, knowledge, attitude and ability. Assessment and evaluation methods are particular and measurable and are intended to increase student learning. Program

Outcomes outline what students will achieve and be able to do by the time they graduate. These are more specific statements refer to skills, knowledge and their behaviour. It reflects the Graduate Attributes, which are globally accepted. CO and PO attainment in each course are estimated based on internal and external evaluations and are again mapped to Program Educational Objectives. Analysis of attainment of COs and POs are made and are addressed in the upcoming semester. Direct and Indirect assessment methods are used to calculate the attainment of POs. Direct assessments are immediately observed by performance in internal and external examinations. Rubrics are used for projects, presentations etc. Indirect assessments are taken through feedback from various stakeholders to identify the scope or worth of their learning experiences. It includes written surveys, questionnaires, exit surveys interviews, etc. Major stakeholders are Employers, Alumni, Faculty, Students and Parents.

3.3 - Extension Activities**3.3.1 - Extension activities are carried out in the neighborhood community, sensitizing students to**

social issues, for their holistic development, and impact thereof during the year

Extension activities that engage students in their local communities not only help them develop a deeper understanding of social issues but also foster empathy, leadership skills, and a sense of responsibility towards society. Through NSS students have organized and participated in Blood Donation Camp, Clean and Green Programs in the surroundings.

Activities like community clean-up drives, awareness campaigns on issues like environmental conservation, health and hygiene, or organizing events to support marginalized groups can have a significant impact. The programs like Clean India Campaign, Rashtriya Ekta Diwas, Cycling Revolution have been instrumental in fulfilling these goals. Various literary competition like Essay Writing and JAM sessions which has given them an opportunity for the students to apply what they learn in the classroom to real-world situations, which enhances their learning experience and encourages active citizenship.

Rakhi ka Rakshak program in association with Police department has sensitised students towards women protection and respect to their female counter parts.

Besides academic and cultural activities, we have built up many strong infrastructures for a variety of sports activities for the physical development of the students. In this way the institute's efforts/initiatives in providing an inclusive environment for everyone with tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic, and other diversities have been realised.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc.

KMIT has well equipped and impressive infrastructure over 5 acres of land, 15509 square meters of built-up area, serene green land which provides an eco-friendly environment, and laboratories to conduct experiments and simulations. Separate building for I Yr. students and Training and Placement cell. KMIT has well-furnished, spacious classrooms with good ventilation to conduct classes.

Classrooms are maintained as per norms for proper visibility of black board/white board and audibility. The classrooms are equipped with fans, lights, and LAN/WIFI.

Connectivity. Most of the classrooms have projectors. The Institution has fully equipped laboratories, with well-maintained instruments, devices, and equipment to conduct experiments. Additional equipment is available to provide students opportunities to work on their projects. The college has three seminar halls and 1 auditorium with 1000 seating capacity. Auditorium is equipped with LCD Projector and public addressing system. Wifi facility is available in the auditorium. The institution has 813 computers with good configuration. 20 computers and 12 laptops are used for administrative and academic purpose. The institution has a central library, the digital library, students are able to access to National Digital Library (NDL), SWAYAM, and NPTEL lecture videos.

4.1.2 - The Institution has adequate facilities for cultural activities, sports, games (indoor, outdoor), gymnasium, yoga centre etc.

Keshav Memorial Institute of Technology (KMIT) provides a holistic learning environment by offering a wide range of facilities for cultural activities, sports, games, and wellness activities such as yoga. These facilities are integral to promoting physical and mental well-being among students and enhancing their overall college experience. we provides students with adequate facilities for cultural activities, sports, games, and yoga, promoting a well-rounded and balanced college experience. These facilities play a crucial role in enhancing the overall development and well-being of students, enabling them to excel academically and personally.

Cultural Activities:

1. **Cultural Clubs:** KMIT has various cultural student clubs that organize events and activities such as music and dance

performances, drama, and art exhibitions.

2. **Festival Celebrations:** The institute celebrates festivals like Bathukamma, Dandiya Night, and Patang Utsav, providing students with opportunities to participate in cultural festivities.

Sports and Games:

Badminton courts (One indoor and 3 outdoor)

1 Basket Ball court

2 Table Tennis Tables

Indoor games

10 chess Boards 6.

6 Caroms Boards

Rest rooms for Players

A mini Football Ground

A Volleyball Court

Yoga Centre:

1. **Yoga Sessions:** KMIT offers regular yoga sessions conducted by trained instructors, promoting physical fitness and mental well-being among students and staff.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

Keshav Memorial Institute of Technology (KMIT) has automated its library operations using an Integrated Library Management System (ILMS). The ILMS implementation has streamlined library processes, enhanced user experience, and improved overall efficiency. The Institute has Digital Library with 20 Terminals.

Key Features:

1. **Cataloging and Classification:** ILMS allows for efficient cataloging and classification of library materials, ensuring easy access and retrieval.

2. **Barcode Integration:** Integration of barcode technology enables quick and accurate identification of library items.
3. **Circulation Management:** ILMS facilitates seamless circulation management, including issuing, renewing, and returning of library materials.
4. **User Management:** The system manages user information, including registration, membership, and fine calculation.

Keshav Memorial Institute of Technology (KMIT) Library is operated by the Developing Library Network (DELNET), a leading library network in India. DELNET's involvement in KMIT Library operations adds significant value in terms of resource sharing, interlibrary loan services, and access to a vast collection of library materials.

Key Features:

1. **Resource Sharing:** DELNET facilitates resource sharing among member libraries, allowing KMIT Library to access a wide range of materials beyond its collection.
2. **Interlibrary Loan Services:** Through DELNET, KMIT Library can request and borrow materials from other member libraries, enhancing its collection and offering to users.
3. **Digital Resources:** DELNET provides access to digital resources, including e-books, e-journals, and databases, enriching the library's digital collection.
4. **Library Automation Support:** DELNET offers support for library automation, helping KMIT Library streamline its operations and services.

4.3 - IT Infrastructure

4.3.1 - Institution frequently updates its IT facilities including Wi-Fi

Keshav Memorial Institute of Technology (KMIT) is committed to providing students, faculty, and staff with the latest IT facilities to enhance the learning and working environment. As part of this commitment, KMIT regularly updates its IT infrastructure, including Wi-Fi services, to ensure optimal

performance and connectivity.

Scope of Upgradation: The IT upgradation at KMIT covers various aspects, including:

1. **Wi-Fi Connectivity:** The Wi-Fi infrastructure at KMIT is regularly updated to provide high-speed internet access to all users across the campus.
2. **Computer Labs:** The computer labs at KMIT are equipped with the latest hardware and software to support the academic and research needs of students and faculty.
3. **IT Equipment:** KMIT invests in upgrading IT equipment such as servers, switches, and routers to ensure seamless operations and data management.
4. **Digital Learning Tools:** KMIT integrates digital learning tools and platforms to facilitate online learning and collaboration among students and faculty.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

Keshav Memorial Institute of Technology (KMIT) has established robust systems and procedures for maintaining and utilizing its physical, academic, and support facilities. These facilities, including laboratories, libraries, sports facilities, computers, and classrooms, play a crucial role in providing students with a conducive learning environment.

Maintenance and utilization of Facilities:

- 1. Laboratories:**Any faulty equipment is promptly repaired or replaced to minimize disruption to academic activities. Laboratories are utilized for practical sessions, research projects, and workshops. Faculty members schedule the use of laboratories to ensure that all students have access to the facilities.

2. **Library:** The library is managed by the Developing Library Network (DELNET), which maintains an extensive collection of books, journals, and digital resources. Library staff ensure that resources are organized and accessible to students and faculty. Students and faculty members can borrow books and access online resources for their academic needs.
3. **Sports Facilities:** The sports facilities are maintained to high standards to support the physical well-being of students. The sports facilities are used for various sports and recreational activities. Students can participate in intercollegiate competitions and tournaments held at the facilities.
4. **Computers:** IT staff conduct regular maintenance to ensure smooth operation and minimize downtime. Computer labs are used for practical sessions, programming assignments, and online assessments. Students have access to computers for academic and research purposes.
5. **Classrooms:** Classrooms are equipped with modern teaching aids such as projectors and whiteboards. Maintenance staff ensure that classrooms are clean and well-maintained. Classrooms are used for lectures, seminars, and academic discussions.

5.3.2 - Institution facilitates students' representation and engagement in various administrative, co-curricular and extracurricular activities (student council/ students representation on various bodies as per established processes and norms)

The institution is dedicated to fostering a vibrant student community by providing opportunities for involvement beyond academics. By establishing processes and norms for student representation, such as through a student council or participation in administrative bodies, co-curricular, and extracurricular activities, the institution ensures that students have a voice in shaping their own experiences.

Student council allows students to actively participate in decision-making processes within the college. This council consist of elected representatives from different departments or class years who advocate for student interests, organize events, and communicate with college administration on behalf of the student body. Students have representation on academic committees, curriculum development boards, and other administrative bodies within the college leading to more student-centered initiatives.

The college could offer a range of co-curricular activities such as technical clubs, hackathons, workshops, and industry interactions. Student involvement in organizing and participating in these activities not only enhances their technical skills but also fosters teamwork, leadership, and innovation. Extracurricular activities like sports, cultural events, community service projects, and entrepreneurial initiatives provide students with opportunities for personal growth and holistic development.

Clearly defined processes and norms for student representation ensure transparency, fairness, and accountability in student

governance. This includes procedures for electing student leaders, guidelines for organizing events, and mechanisms for resolving conflicts or addressing grievances.

5.4 - Alumni Engagement

5.4.1 - There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

The Alumni association of KMIT, popularly known as KMIT PARISHAD is a platform for passed out students to have live contact with KMIT and interact with students. The members of the Alumni association meet every year and discuss on matters related to alumni and the development of the college.

They also share their current experiences and recall charming old memories. The institute regularly invites the alumni to conduct

expert lectures, seminars and workshops. The institute also invites the alumni for placement talks, entrepreneurship activities and financial contribution for the development of the students.

The members of the alumni association regularly visit the college and Training and Placement Cell to conduct pre-placement talks, highlighting the job opportunities available in their respective Industries.

Alumni contribution includes:

Establish Memorandum of Understanding between the institution and alumni entrepreneurs.

Suggestions and Support to Training and Placement Cell.

Enhance teaching learning process through Expert/Guest Lectures.

Interact with ongoing batch students in the areas of career awareness and career planning.

Participate in IQAC Cell for improving the quality of education.

Provide guidance to students for project work and on latest technologies.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of

the institution

The governance structure at KMIT stands as a testament to its commitment to realizing its vision and mission. Rooted in effective leadership and strategic foresight, KMIT's governance is finely tuned to propel the institution towards its desired outcomes.

Central to this approach is the continual refinement of processes and decision-making mechanisms. By fostering a culture of collaboration and transparency, KMIT ensures that all stakeholders are engaged in the pursuit of its vision. This inclusive approach not only enhances but also fosters a sense of ownership among faculty, staff, and students.

Furthermore, KMIT recognizes the dynamic nature of the educational landscape and the need for agility in its planning processes. As such, the institution remains adaptable, regularly reassessing its goals and priorities in response to internal and external factors.

Moreover, KMIT's governance framework is underpinned by a commitment to excellence. Through rigorous performance evaluation and benchmarking against industry standards, the institution holds itself to the highest standards of quality and accountability.

In addition, KMIT places a premium on innovation and creativity in its pursuit of excellence. By fostering a culture of experimentation and risk-taking, the institution empowers its stakeholders to push the boundaries of knowledge and practice.

Ultimately, KMIT's governance model serves as a great model for success in the ever-evolving landscape of higher education. By staying true to its vision and mission, while remaining agile and innovative, KMIT continues to set the standard for excellence in education."

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

KMIT's leadership manifests its effectiveness through a commitment to decentralized governance and participative management—a pivotal aspect of its institutional ethos. At its core, participative management embodies a collaborative framework where management representatives, the Principal, faculty, and students assume vital roles in decision-making processes.

Within this framework, management representatives diligently uphold quality standards and ensure the institution's welfare. Meanwhile, the Principal orchestrates academic and administrative endeavors in collaboration with Heads of Departments (HODs) and faculty members, fostering a culture of inclusivity and shared responsibility.

Participative management permeates every facet of KMIT, exemplified by the formation of administrative and academic committees wherein students and faculty actively contribute. The Principal exercises oversight over academic matters and committee formations, while HODs exercise functional autonomy in steering departmental affairs. This autonomy extends to decision-making on departmental events, budget proposals, timetables, subject allocation, and the organisation of conferences, seminars, and workshops—each endeavor underpinned by collaborative faculty engagement.

Proposals stemming from diverse stakeholders undergo rigorous scrutiny in departmental meetings, ensuring comprehensive review before being forwarded to the appropriate authority. The Principal facilitates the consolidation of budget proposals, fostering dialogue to streamline allocation and avoid redundancies. In instances of duplicate proposals across departments, deliberations ensue to determine the most suitable recipient department.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

At KMIT we believe strategy serves as the blueprint guiding the achievement of goals through resource allocation. Typically, the

senior leadership shoulders the responsibility of crafting strategy, whether through planned initiatives or emergent adaptations to environmental dynamics. At KMIT development is a continual journey marked by incessant improvement, facilitated by strategic perspectives. The initial phase of progress often begins with collaborative brainstorming sessions, wherein all stakeholders contribute ideas. Their insights are then integrated into the strategic planning process.

Tasks are categorized into short-term and long-term objectives, prioritized based on feasibility and available resources. Once endorsed by Academic Director, these plans are disseminated to respective departments for implementation. An illustrative example of effective strategic execution is the establishment of a goal aimed at achieving 100% placement rates.

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

The governing body of KMIT is constituted as per the AICTE norms. The body meets once in a year in general and few more times on the basis of any ad-hoc need. Decisions like introduction of new course, closure of existing courses, construction of new blocks, enhancement of physical facilities and other initiatives for improvement of the institution are taken in the form of society resolutions in the governing body. Governing body is the ultimate authority for any decision in the institution. Administrative set up of the institution is as per the organization chart of the organization. Governing body being the ultimate authority will have the Chairman of the society under the body. Board members are under Chairman. Principal is the academic and administrative head of the institution. Heads of the Department report to the Principal. Staff report to respective Heads of the Department/ Coordinators. Heads of Administration, Examination branch, Library and Physical Education report to the Principal. Coordinators are under Heads of the Department.

6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff

KMIT management conducts performance appraisals for all the faculty members. To check quality of guidance, instruction, curriculum, scholarship, research, and systems. The goal of the college in assessing its faculty is to identify and correct inefficiencies and provide the necessary direction and guidance in support of each individual faculty member for assurance of quality and integrity. Faculty members are assessed in relation to the college's expectations of its faculty in the areas of faculty standards, program operations, and the college's policies on ethics and professional behavior. Assessment of program operations, focus upon orientation of the student, planning of student degree activities, course planning and delivery, and proper conduct of the program, reporting of student progress, and maintenance of quality standards.

Performance appraisal is taken up every year at KMIT.

Factors that normally are considered in the performance appraisal include, but are not limited to

- Knowledge of the job
- Quality of work
- Promptness in completing assignments
- Cooperation
- Initiative
- Reliability
- Attendance
- Judgment
- Acceptance of responsibility.

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling audit objections within a maximum of 200 words

The prime objective of institutional financial audit is to review the income and expenditures. Audit involves performing procedures for accountability in financial transactions. The institution prepares its budget every year as per the recurring and non-recurring expenses requirements of all departments as well as functional committees and is submitted to the management for approval. The sanctioned budget from the management is then allocated to the departments under the categories such as consumables, lab equipment purchase, industrial visits, research and development activities etc. A predefined institutional procedure is followed by all the departments for various purchases and expenses.

To ensure proper utilization of funds and to minimize any discrepancy, the Institution conducts internal as well as external audit at regular intervals. Internal Audit mechanism is ongoing continuous process to check and verify all vouchers of transactions with reference to sanctioned budget. All recurring and non-recurring expenses are reflected in the internal audit report. Necessary comparative statements, Purchase Orders, Tax Invoice / Bills are verified. Auditor prepares its internal audit report mentioning the discrepancy observed during the audit (if any). The report, along with audit observations, is submitted by auditor for further explanation and corrective actions. External auditor conducts audit to determine the quality of financial operations

6.4.3 - Institutional strategies for mobilization of funds and the optimal utilization of resources

The following procedure is adopted for the utilization of resources. Planning: The laboratory in-charges propose laboratory-wise requirements. The expenses required for the departmental activities such as organizing co curricular and extracurricular activities are also included in the annual budget. Budget Formulation: An annual budget of the department is prepared and forwarded by all the HODs to the Principal for consent. After the review, The final consolidated budget is forwarded to the Management Committee for a final approval. Allocation: With the approval from the Head of the Institution fund will be released as per the necessity of the proposed expenses. Provision is also made for emergency expenditure. The sanctioned funds are utilized for the development of laboratories, procurement of books, national /international journals, staff salary, development and maintenance activities, etc. These are forwarded to the Principal through HOD for consideration and consent. Looking to the importance of the requirement, the Principal forwards the note to the Management for its final sanction. Audit: The Accounts Section of the

Administrative office verifies the expenses against the sanctioned amount carried out under various institutional / departmental activities from the supporting documents and gives their remarks for the final settlement.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

Here's a breakdown of IQAC contributions:

The IQAC ensures that course files are thoroughly audited, ensuring that curriculum content is up-to-date, relevant, and meeting the required standards. This involves regular reviews, feedback mechanisms, and alignment with industry trends.

IQAC oversees the engagement of subject experts in curriculum design and delivery. This ensures that academic content is enriched with the latest advancements and best practices in respective fields.

IQAC manages mentoring files, ensuring that faculty mentorship programs are effectively implemented. This involves monitoring mentor-mentee interactions, providing support mechanisms, and tracking progress.

The IQAC spearheads project school initiatives aimed at enhancing practical learning experiences for students. This involves facilitating industry collaborations, providing resources, and evaluating project outcomes.

IQAC integrates imagineering school concepts into the academic framework. This fosters creativity, innovation, and interdisciplinary collaboration among students and faculty.

The IQAC oversees the activities of student clubs, ensuring they align with the institution's objectives and provide holistic development opportunities for students.

IQAC manages various events, including seminars, workshops, and conferences, aimed at enriching the academic environment and promoting knowledge exchange.

Overall, the IQAC's efforts contribute to the enhancement of the institution's overall quality assurance framework, ensuring that academic and extracurricular activities meet the highest standards and contribute to the holistic development of students.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

At KMIT, the IQAC diligently reviews its teaching-learning processes, operational structures, methodologies, and learning outcomes at regular intervals in accordance with established norms.

The IQAC conducts periodic reviews of teaching-learning processes and methodologies to ensure they remain effective and aligned with evolving educational standards and best practices.

It assesses the structural components of operations, including administrative processes, resource allocation, and infrastructure, to identify areas for improvement and optimization.

The IQAC evaluates the methodologies employed in teaching and learning, such as pedagogical approaches, use of technology, and assessment methods, to enhance engagement and effectiveness.

It scrutinizes the learning outcomes achieved by students across various programs and courses to gauge the effectiveness of teaching methodologies and identify areas needing enhancement.

The IQAC ensures that these reviews and assessments are conducted in accordance with established norms and guidelines set by regulatory bodies and accreditation agencies.

Incremental improvements resulting from these activities are meticulously recorded and documented by the IQAC. This documentation serves as evidence of the institution's commitment to continuous improvement and quality enhancement.

Feedback mechanisms are established to gather inputs from stakeholders, including students, faculty, and industry partners, which are then considered during the review process.

Based on the findings of these reviews, the IQAC develops action plans to address areas requiring improvement and implements strategies to enhance the overall teaching-learning experience.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

KMIT prioritizes a safe and secure environment for its entire community. This collaborative effort involves the institute's security personnel, city police, fire department, and local communities. A professional security team, appointed from a licensed agency, provides 24/7 vigilance. For medical emergencies, a well-equipped first-aid room is readily available to both staff and students. Additionally, KMIT has incorporated a mandatory Gender Sensitization course into the curriculum for all branches, aligning with JNTU Hyderabad's guidelines.

KMIT champions gender equity through a mandatory Gender Sensitization course for all branches, aligning with JNTU Hyderabad's guidelines. This course is complemented by a committee constituted to empower the safety measures for female members. By organizing workshops and sensitization programs led by eminent psychologists and social workers, the committee works to promote a culture of respect and inclusivity, fostering a harmonious atmosphere on campus.

In addition to its focus on safety measures, the Women's Cell also addresses student grievances and concerns. Through counseling sessions, KMIT empowers students with vital knowledge on various safety aspects. These sessions cover topics such as safe two-wheeler riding practices, the importance of wearing lab aprons, and proper footwear for laboratory safety.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

KMIT prioritizes a clean and green campus by implementing a comprehensive waste management system. Strategically placed bins throughout departments and classrooms collect both wet and dry waste, ensuring regular collection mornings and evenings. This not only keeps the campus clean but also promotes environmental responsibility. Dried leaves and plant trimmings are cleverly diverted from landfills and composted, creating nutrient-rich manure that nourishes the campus greenery, further promoting sustainability.

Our campus prioritizes responsible waste management by treating wastewater through a sedimentation process. Sewage water from across the campus is collected through an underground pipeline network. Sedimentation helps remove heavier particles from the wastewater. This initial treatment step paves the way for further processing or proper discharge according to environmental

regulations.

Our college prioritizes environmentally responsible practices for electronic waste (e-waste). We handle different e-waste categories effectively:

- **Non-functional electronics:** CPUs, hard disks, and laboratory equipment scrap are responsibly recycled through certified e-waste recyclers, ensuring safe and eco-friendly processing.
- **Usable electronics:** We extend the lifespan of functional computers by donating them to educational institutions or charities, promoting access to technology and reducing the digital divide.
- **Printer cartridges:** We minimize waste and promote resource conservation by utilizing external vendors for printer cartridge refilling services.
- **UPS batteries:** Whenever possible, we prioritize sustainability by recharging and repairing UPS batteries through qualified suppliers, reducing the need for replacements.

7.1.8 - Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities (within 200 words).

KMIT fosters an inclusive environment that celebrates diversity in all its forms, nurturing tolerance, harmony, and mutual respect among its community members. Through a range of initiatives, the institution promotes cultural, regional, linguistic, communal, socioeconomic, and other diversities, ensuring that every individual feels valued and supported.

One key initiative is the promotion of cultural exchange programs, where students and faculty from diverse backgrounds come together to share their traditions, languages, and perspectives on Traditional days conducted once in a semester. These programs not only foster cross-cultural understanding but also cultivate empathy and appreciation for different ways of life.

Kmit promotes linguistic diversity by offering multilingual support services and encouraging the use of diverse languages in academic and social settings. This inclusivity extends to regional

and communal diversities, with the institution providing platforms for dialogue and collaboration among various communities. Additionally implements socioeconomic inclusion initiatives to ensure equal access to education and resources for all students, regardless of their financial background. Scholarships, financial aid programs, and mentorship opportunities are available to support students from underprivileged communities.

Overall, KMIT is committed to creating an environment where diversity is celebrated, differences are embraced, and every individual is empowered to thrive. Through these inclusive efforts, the institution cultivates a sense of belonging and unity, enriching the educational experience for all.

7.1.9 - Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

KMIT, through various programs and initiatives, we aim to instil an understanding of the values, rights, duties, and responsibilities enshrined in the constitution of our country.

Our academic curriculum includes modules dedicated to civic education and constitutional literacy. Students are introduced to fundamental concepts such as democracy, rule of law, human rights, and citizenship, enabling them to appreciate the importance of constitutional principles in shaping a just and equitable society.

We regularly organize workshops, seminars, and panel discussions featuring experts in constitutional law, political science, and social justice providing opportunities for students and employees to engage in meaningful dialogue, deepen their understanding of constitutional issues, and explore their rights and responsibilities as citizens. From voter registration drives to community service projects, we encourage students and employees to exercise their civic duties and contribute to the betterment of society.

As part of our commitment to holistic education, Through leadership programs, mentorship opportunities, and experiential learning activities, we empower students and employees to become responsible citizens who uphold the principles of justice, equality, and social responsibility. We have a comprehensive code of conduct that reflects our institutional values and aligns with constitutional principles. All members of our community are expected to uphold these standards of behaviour, respecting the rights and dignity of others while fulfilling their own duties and responsibilities.

7.1.11 - Institution celebrates / organizes national and international commemorative days, events and festivals

It's a tradition in KMIT to celebrate Bathukammafloral festival every year predominantly as it is in the Indian state of Telangana. The institution might organize a vibrant event where students, faculty, and staff come together to create and display Bathukamma floral arrangements. This could involve workshops on traditional floral artistry, dance performances showcasing Telangana culture, and a competition for the most intricately designed Bathukmmas. Traditional Telugu cuisine could be served, adding to the festive atmosphere.

On Independence Day and Republic Daynational holidays, the KMIT institution organizes flag hoisting ceremonies followed by cultural programs and patriotic activities. Students might present skits, songs, or poetry readings highlighting the history and significance of India's struggle for independence and the establishment of the republic. Inviting guest speakers, such as veterans or historians, to share their insights can deepen understanding and appreciation of the country's heritage.

To celebrate International Women's Day, KMIT hosts a series of events aimed at promoting gender equality and empowering women. This might include panel discussions on women's rights and leadership, workshops on professional development and entrepreneurship for women, and screenings of films or documentaries showcasing inspirational stories of women achievers. Recognizing outstanding female faculty, staff, and students through awards or accolades can also be a meaningful gesture.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

- **Blood Donation camp conducted by NSS-KMIT was on 25/09/2023. It was in collaboration with Lions Club. It lasted for one day and was done in SAC Room. We had 119 donors. The donors**

were given place to rest for some time in the SAC Room. While the doctors were doing their work, the NSS volunteers went to all the classrooms to campaign about the camp. We did the campaigning also in KMCL. The donors were very honoured to be a part of such a good and thoughtful project.

- NSS-KMIT conducted a cloth donation drive from the days 28th October, 2023 to 11th November, 2023. The College Clothing Donation Drive aimed to collect gently used clothing items to assist individuals within and beyond our campus community. Students, faculty, and staff enthusiastically participated in the donation drive, demonstrating a strong sense of empathy and solidarity. From trendy fashion pieces to essential everyday wear, the variety of clothing donations received reflected the diversity and generosity of our college community. Donors contributed items ranging from casual attire to professional wear, catering to a wide range of needs. We collected old and used cloth which were still in good condition from the students and faculty and donated them in 2 orphanages and a few slums near that area. It was a success. 41 students participated in the drive. The people were very grateful and the volunteers had a great eye-opening experience.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

Keshav Memorial Institute of Technology (KMIT) has established itself as a premier institution committed to holistic education. One of its standout features is the Finishing School, designed to equip students with the necessary skills and attributes to excel in their professional lives.

The primary objective of the KMIT Finishing School is to bridge the gap between academic learning and industry requirements, ensuring students are well-prepared for the challenges of the corporate world.

Comprehensive training sessions covering communication skills, interpersonal skills, leadership development, and time management

are conducted to enhance the employability quotient of students. specialized training programs are organized to enhance technical skills relevant to the industry, ensuring students are well-versed with the latest tools and technologies.

Personality grooming sessions focus on improving self-confidence, grooming, etiquette, and overall personality enhancement, preparing students to present themselves effectively in professional settings. Regular interactions with industry experts, workshops, seminars, and guest lectures provide students with insights into industry trends, expectations, and emerging technologies, thereby aligning their skill sets with industry requirements.

The Finishing School employs a structured methodology comprising workshops, seminars, mock interviews, group discussions, and hands-on training sessions to ensure maximum engagement and learning effectiveness.

Part B

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

Keshav Memorial Institute of Technology (KMIT), with autonomous status since 2020, maintains a dynamic curriculum, reflecting the latest trends in technology and industry requirements. The institution adheres to the guidelines set by the All India Council for Technical Education (AICTE) and the affiliating university, Jawaharlal Nehru Technological University, Hyderabad (JNTUH). KMIT's curriculum and development approach are aligned with industry requirements and global trends, providing students with a comprehensive learning experience that prepares them for successful careers in the field of technology. Through its OBE framework, industry-oriented curriculum, and focus on holistic development, KMIT stands out as a leader in technical education, nurturing future-ready professionals

Curriculum Design:

- **Outcome-Based Education (OBE):** KMIT has adopted an Outcome-Based Education approach, incorporating Program Educational Objectives (PEOs), Program Outcomes (POs), Program Specific Outcomes (PSOs), and Course Outcomes (COs). This framework ensures that the curriculum is designed to meet specific learning objectives and industry demands.
- **Industry-Oriented Curriculum:** The curriculum is designed to bridge the gap between academia and industry, offering courses such as Cloud Computing, Competitive Programming, Blockchain Technology, AI, Deep Learning & ML, Natural Language Processing, and Big Data with Hadoop and Spark. These courses are integrated as professional core, elective, and mandatory courses, providing students with a solid foundation in advanced technologies
- **Dynamic Curriculum:** The curriculum is constantly updated to reflect the latest advancements in technology and industry trends, ensuring that students are prepared to meet the demands of the rapidly evolving tech landscape.

File Description	Documents
Upload relevant supporting document	View File
Link for Additional information	https://www.kmit.in/academics/syllabus.php

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

Keshav Memorial Institute of Technology (KMIT), after attaining autonomous status in 2020, has implemented a unique approach to managing its academic calendar and teaching methodology, ensuring a well-rounded educational experience for its students.

Academic Calendar:

- **JNTUH Affiliation:** For the fourth year, KMIT follows the Jawaharlal Nehru Technological University, Hyderabad (JNTUH) Academic calendar, as this batch is affiliated to JNTUH.
- **Autonomous Calendar:** For the second, third, and first years, KMIT follows its autonomous calendar, allowing for flexibility in scheduling and curriculum design to meet the specific needs of the institution and its students.

Teaching Methodology:

- **Lesson Planning:** Before the commencement of each semester, course coordinators prepare lesson plans that include course objectives and outcomes. These plans are dually approved by the module coordinator and the Head of the Department, ensuring alignment with academic goals and standards.
- **Feedback Mechanism:** KMIT emphasizes continuous improvement in teaching quality. To achieve this, feedback on every subject is collected every fortnight by the module coordinators. Areas highlighted by students are then shared with the respective faculty members to enhance their teaching effectiveness.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

Methodologies to support weak students and encourage advanced learners**Guidelines to identify weak students**

The Mentors regularly conduct meetings regarding progress of their mentees and are responsible to identify students who scored less than 60% marks in their internals. Under the directions of program coordinator, the students' Mentor monitors the progress of those students who score below 60% marks in three or more subjects.

1. Student Mentors follows their progress regularly advising students about attending classes, making up classes missed, and getting additional help.

2. Remedial classes are conducted.

3. Diploma students who entered with less basics of mathematics

and programming essentials Bridge courses are conducted.

4. Students having poor performance in Tesselator courses Exercises are uploaded on Telescope for additional practice. (so that they can solve the problems at home)

5. Notes, FAQ's, MCQ's, Model Question papers are provided.

Guidelines to identify Advanced students

Actions taken Those students who excel in day-to-day evaluation are encouraged to participate in inter college national/ international fest. Made them globally competent to participate in worldwide coding competitions like IEEE extreme competition, ACM ICPC, Google code jam, etc. Adviced to be on board of student council which enriches their management skills.

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

KMIT greatly emphasizes on the quality of the teaching-learning process by adopting various methodologies. The main objective of student-centric methods in the teaching and learning process

is to facilitate both the learners and teachers to compete professionally by understanding the essence of the learning concepts. The figure below depicts the student-centric teaching-learning methods which are adopted in KMIT.

Experiential Learning:

KMIT gives great importance to Experiential learning, a pedagogy in which the learners are more focused on doing things thereby learning the fundamental and advanced engineering key concepts. To emphasize experiential learning, laboratory courses, theory with practical courses are offered. KMIT has state-of-the-art laboratories, used by students to get their theoretical concepts experienced through practice.

Participative learning:

KMIT promotes Participative Learning to ensure and empower the understanding of the engineering concepts and to make effective utilization of the teaching resource as well. Wi-fi-enabled campus and remote access to the library help in seamless online learning.

Problem-based Learning: The course curriculum is designed to improve student's problem-solving skills by expanding the knowledge base, developing the spirit of inquiry, and refining analytical skills, intellectual creativity, technical dexterity, and professional competence of students.

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write description in maximum of 200 words

KMIT ascribes great importance to quality enhancement in the teaching-learning process which is ensured by the teaching and learning Policy. The teaching and learning environment in KMIT are augmented with ICT-enabled teaching methodologies, which are widely adopted by 100% of faculty members in all the courses taught by them.

- Information & Communications Technology (ICT) enabled teaching methodologies using cuttingedge technology, are being followed by the faculty members in classrooms and seminar halls.
- The faculty members effectively utilize Audio-Visual aids, to demonstrate the concepts to the students using the resources from the National Programme on Technology Enhanced Learning (NPTEL) to enhance the learning experience. The credits will be transferred to the students upon completing the online courses through NPTEL and other sources.
- Interactive teaching tools like Tesselator(LMS) and Google classroom are extensively used to conduct quizzes, solve programming questions and to give assignments, by the faculty to assess the performance of the student. the online platform enables teachers to conduct online classes, boot camps in evenings and to students to practice programming exercises at home. High quality e-content like unit wise notes, MCQ's, animations, lab programs as per syllabus and beyond syllabus, previous question papers, model question papers are also uploaded on Telescope.
- Apps and applications used by the teacher
 - KMITRA
 - Tesslater (LMS)
 - Sanjaya App
 - Drona App
 - Netra App

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

The mechanism of internal assessment is designed to be transparent and robust, ensuring fair evaluation of students' performance. The assessment is structured throughout the academic year, with regular intervals such as internal examinations, quizzes, assignments, and presentations. The assessment framework typically allocates specific weightage to different components such as exams, assignments, projects, and class participation. This distribution is communicated to students upfront, providing clarity on the relative importance of each assessment type in determining final grades.

Transparency is maintained through clear communication of assessment criteria, grading rubrics, and performance expectations at the beginning of each course. The assessment mechanism is designed to be flexible, allowing adjustments based on the evolving needs of students and the academic environment. It adapts to diverse learning styles and challenges, ensuring inclusivity and equity in evaluation.

Also, feedback mechanisms are established to provide students with constructive comments on their strengths and areas for improvement. A robust feedback loop wherein students receive constructive feedback on their performance promptly after each assessment. This feedback is actionable, highlighting areas of improvement and guiding students towards academic excellence which fosters a culture of accountability and encourages students in their learning process.

File Description	Documents
Any additional information	View File
Link for additional information	https://drive.google.com/file/d/1ZBVT4KsQv7qDWT0YeCtrAA46eCS1oFis/view?usp=drive_link

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time-bound and efficient

The college outlines a clear policy detailing the process for lodging and resolving examination-related grievances. This policy is made readily available to students through the college website or notice boards.

Grievance Redressal Cell established within the college administration is responsible for receiving, documenting, and resolving examination grievances from students in a fair and impartial manner. Students are provided with a structured process for submitting grievances which involves filling out a standardized grievance form or submitting grievances through an online portal. The college resolves examination grievances within a stipulated timeframe ensuring that grievances are addressed promptly, minimizing disruptions to students' academic progress. clear and timely communication is maintained with the student who lodged the grievance. Updates on the status of the investigation and resolution timelines are provided to ensure transparency and keep the student informed.

Once the investigation is complete, the Grievance Redressal Cell makes a fair and equitable decision based on the findings. If the grievance is found to be valid, appropriate remedial measures are implemented, which may include reevaluation of the examination, correction of errors, or other corrective actions. Following the resolution of grievances, students are encouraged to provide feedback on their experience with the grievance redressal process. Which helps in identifying areas for improvement and ensuring continual enhancement of the grievance redressal mechanism.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

Communication to the Students:

- The POs and PSOs of all programmes are printed in the College Manual which is provided to all students .
- POs, PSOs and COs of all the programmes are displayed on the College website.
- PSOs and COs of respective programmes and courses are published on the departmental portal.
- POs, PSOs are displayed on the Notice Boards Soft copies of syllabus with PSOs and COs are shared with the students through Learning Management System, mail by individual Faculty.
- Hardcopy of the syllabi with POs, PSOs and COs is maintained in every department for ready reference During the Students Induction Programme, POs and PSOs are
- explained to the new admissions extensively in detail Teachers who offer various courses explain the relationship of each course outcome with POs and PSOs at the beginning of semester.
- Curricular and co-curricular activities are organized in congruence with the Vision, Mission, POs and PSOs

Communication to the Faculty:

- The faculty are primarily involved in the drafting of POs, PSOs and COs takes place during therevision/drafting of the syllabus and thus have very good awareness on the same.
- The POs, PSOs and COs are communicated to the faculty through orientation programmes, Institutional faculty development programmes and departmental council meetings

Communication to other stakeholders:

- The alumni and employers are communicated with the POs, PSOs and COs through the college website.
- The parents are given awareness on the Programme Outcomes and OBE paradigm During orientation program and Parent Teacher Meetings.

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

Course Outcomes are measurable performance indicators which outline what students will achieve and be able to do by the end of the course. These quantify student skills, knowledge, attitude and ability. Assessment and evaluation methods are particular and measurable and are intended to increase student learning. Program Outcomes outline what students will achieve and be able to do by the time they graduate. These are more specific statements refer to skills, knowledge and their behaviour. It reflects the Graduate Attributes, which are globally accepted. CO and PO attainment in each course are estimated based on internal and external evaluations and are again mapped to Program Educational Objectives. Analysis of attainment of COs and POs are made and are addressed in the upcoming semester. Direct and Indirect assessment methods are used to calculate the attainment of POs. Direct assessments are immediately observed by performance in internal and external examinations. Rubrics are used for projects, presentations etc. Indirect assessments are taken through feedback from various stakeholders to identify the scope or worth of their learning experiences. It includes written surveys, questionnaires, exit surveys interviews, etc. Major stakeholders are Employers, Alumni, Faculty, Students and Parents.

3.3 - Extension Activities

3.3.1 - Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year

Extension activities that engage students in their local communities not only help them develop a deeper understanding of social issues but also foster empathy, leadership skills, and a sense of responsibility towards society. Through NSS students have organized and participated in Blood Donation Camp, Clean and Green Programs in the surroundings.

Activities like community clean-up drives, awareness campaigns on issues like environmental conservation, health and hygiene, or organizing events to support marginalized groups can have a

significant impact. The programs like Clean India Campaign, Rashtriya Ekta Diwas, Cycling Revolution have been instrumental in fulfilling these goals. Various literary competition like Essay Writing and JAM sessions which has given them an opportunity for the students to apply what they learn in the classroom to real-world situations, which enhances their learning experience and encourages active citizenship.

Rakhi ka Rakshak program in association with Police department has sensitised students towards women protection and respect to their female counter parts.

Besides academic and cultural activities, we have built up many strong infrastructures for a variety of sports activities for the physical development of the students. In this way the institute's efforts/initiatives in providing an inclusive environment for everyone with tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic, and other diversities have been realised.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc.

KMIT has well equipped and impressive infrastructure over 5 acres of land, 15509 square meters of built-up area, serene green land which provides an eco-friendly environment, and laboratories to conduct experiments and simulations. Separate building for I Yr. students and Training and Placement cell. KMIT has well-furnished, spacious classrooms with good ventilation to conduct classes. Classrooms are maintained as per norms for proper visibility of black board/white board and audibility. The classrooms are equipped with fans, lights, and LAN/WIFI.

Connectivity. Most of the classrooms have projectors. The

Institution has fully equipped laboratories, with well-maintained instruments, devices, and equipment to conduct experiments. Additional equipment is available to provide students opportunities to work on their projects. The college has three seminar halls and 1 auditorium with 1000 seating capacity. Auditorium is equipped with LCD Projector and public addressing system. Wifi facility is available in the auditorium. The institution has 813 computers with good configuration. 20 computers and 12 laptops are used for administrative and academic purpose. The institution has a central library, the digital library, students are able to access to National Digital Library (NDL), SWAYAM, and NPTEL lecture videos.

File Description	Documents
Upload any additional information	View File
Paste link for additional information	https://kmit.in/infrastructure/classroom.php

4.1.2 - The Institution has adequate facilities for cultural activities, sports, games (indoor, outdoor), gymnasium, yoga centre etc.

Keshav Memorial Institute of Technology (KMIT) provides a holistic learning environment by offering a wide range of facilities for cultural activities, sports, games, and wellness activities such as yoga. These facilities are integral to promoting physical and mental well-being among students and enhancing their overall college experience. we provides students with adequate facilities for cultural activities, sports, games, and yoga, promoting a well-rounded and balanced college experience. These facilities play a crucial role in enhancing the overall development and well-being of students, enabling them to excel academically and personally.

Cultural Activities:

1. **Cultural Clubs:** KMIT has various cultural student clubs that organize events and activities such as music and dance performances, drama, and art exhibitions.
2. **Festival Celebrations:** The institute celebrates festivals like Bathukamma, Dandiya Night, and Patang Utsav,

providing students with opportunities to participate in cultural festivities.

Sports and Games:

Badminton courts (One indoor and 3 outdoor)

1 Basket Ball court

2 Table Tennis Tables

Indoor games

10 chess Boards 6.

6 Caroms Boards

Rest rooms for Players

A mini Football Ground

A Volleyball Court

Yoga Centre:

1. Yoga Sessions: KMIT offers regular yoga sessions conducted by trained instructors, promoting physical fitness and mental well-being among students and staff.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

Keshav Memorial Institute of Technology (KMIT) has automated its library operations using an Integrated Library Management System (ILMS). The ILMS implementation has streamlined library processes, enhanced user experience, and improved overall efficiency. The Institute has Digital Library with 20 Terminals.

Key Features:

- 1. Cataloging and Classification:** ILMS allows for efficient cataloging and classification of library materials, ensuring easy access and retrieval.

2. **Barcode Integration:** Integration of barcode technology enables quick and accurate identification of library items.
3. **Circulation Management:** ILMS facilitates seamless circulation management, including issuing, renewing, and returning of library materials.
4. **User Management:** The system manages user information, including registration, membership, and fine calculation.

Keshav Memorial Institute of Technology (KMIT) Library is operated by the Developing Library Network (DELNET), a leading library network in India. DELNET's involvement in KMIT Library operations adds significant value in terms of resource sharing, interlibrary loan services, and access to a vast collection of library materials.

Key Features:

1. **Resource Sharing:** DELNET facilitates resource sharing among member libraries, allowing KMIT Library to access a wide range of materials beyond its collection.
2. **Interlibrary Loan Services:** Through DELNET, KMIT Library can request and borrow materials from other member libraries, enhancing its collection and offering to users.
3. **Digital Resources:** DELNET provides access to digital resources, including e-books, e-journals, and databases, enriching the library's digital collection.
4. **Library Automation Support:** DELNET offers support for library automation, helping KMIT Library streamline its operations and services.

4.3 - IT Infrastructure

4.3.1 - Institution frequently updates its IT facilities including Wi-Fi

Keshav Memorial Institute of Technology (KMIT) is committed to providing students, faculty, and staff with the latest IT facilities to enhance the learning and working environment. As part of this commitment, KMIT regularly updates its IT infrastructure, including Wi-Fi services, to ensure optimal

performance and connectivity.

Scope of Upgradation: The IT upgradation at KMIT covers various aspects, including:

1. **Wi-Fi Connectivity:** The Wi-Fi infrastructure at KMIT is regularly updated to provide high-speed internet access to all users across the campus.
2. **Computer Labs:** The computer labs at KMIT are equipped with the latest hardware and software to support the academic and research needs of students and faculty.
3. **IT Equipment:** KMIT invests in upgrading IT equipment such as servers, switches, and routers to ensure seamless operations and data management.
4. **Digital Learning Tools:** KMIT integrates digital learning tools and platforms to facilitate online learning and collaboration among students and faculty.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

Keshav Memorial Institute of Technology (KMIT) has established robust systems and procedures for maintaining and utilizing its physical, academic, and support facilities. These facilities, including laboratories, libraries, sports facilities, computers, and classrooms, play a crucial role in providing students with a conducive learning environment.

Maintenance and utilization of Facilities:

- 1. Laboratories:**Any faulty equipment is promptly repaired or replaced to minimize disruption to academic activities. Laboratories are utilized for practical sessions, research projects, and workshops. Faculty members schedule the use of laboratories to ensure that all

students have access to the facilities.

2. **Library:** The library is managed by the Developing Library Network (DELNET), which maintains an extensive collection of books, journals, and digital resources. Library staff ensure that resources are organized and accessible to students and faculty. Students and faculty members can borrow books and access online resources for their academic needs.
3. **Sports Facilities:** The sports facilities are maintained to high standards to support the physical well-being of students. The sports facilities are used for various sports and recreational activities. Students can participate in intercollegiate competitions and tournaments held at the facilities.
4. **Computers:** IT staff conduct regular maintenance to ensure smooth operation and minimize downtime. Computer labs are used for practical sessions, programming assignments, and online assessments. Students have access to computers for academic and research purposes.
5. **Classrooms:** Classrooms are equipped with modern teaching aids such as projectors and whiteboards. Maintenance staff ensure that classrooms are clean and well-maintained. Classrooms are used for lectures, seminars, and academic discussions.

5.3.2 - Institution facilitates students' representation and engagement in various administrative, co-curricular and extracurricular activities (student council/ students representation on various bodies as per established processes and norms)

The institution is dedicated to fostering a vibrant student community by providing opportunities for involvement beyond academics. By establishing processes and norms for student representation, such as through a student council or participation in administrative bodies, co-curricular, and extracurricular activities, the institution ensures that students have a voice in shaping their own experiences.

Student council allows students to actively participate in decision-making processes within the college. This council

consist of elected representatives from different departments or class years who advocate for student interests, organize events, and communicate with college administration on behalf of the student body. Students have representation on academic committees, curriculum development boards, and other administrative bodies within the college leading to more student-centered initiatives.

The college could offer a range of co-curricular activities such as technical clubs, hackathons, workshops, and industry interactions. Student involvement in organizing and participating in these activities not only enhances their technical skills but also fosters teamwork, leadership, and innovation. Extracurricular activities like sports, cultural events, community service projects, and entrepreneurial initiatives provide students with opportunities for personal growth and holistic development.

Clearly defined processes and norms for student representation ensure transparency, fairness, and accountability in student governance. This includes procedures for electing student leaders, guidelines for organizing events, and mechanisms for resolving conflicts or addressing grievances.

5.4 - Alumni Engagement

5.4.1 - There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

The Alumni association of KMIT, popularly known as KMIT PARISHAD is a platform for passed out students to have live contact with KMIT and interact with students. The members of the Alumni association meet every year and discuss on matters related to alumni and the development of the college.

They also share their current experiences and recall charming old memories. The institute regularly invites the alumni to conduct expert lectures, seminars and workshops. The institute also invites the alumni for placement talks, entrepreneurship activities and financial contribution for the development of the students.

The members of the alumni association regularly visit the college and Training and Placement Cell to conduct pre-placement talks, highlighting the job opportunities available in their respective Industries.

Alumni contribution includes:

Establish Memorandum of Understanding between the institution and alumni entrepreneurs.

Suggestions and Support to Training and Placement Cell.

Enhance teaching learning process through Expert/Guest Lectures.

Interact with ongoing batch students in the areas of career awareness and career planning.

Participate in IQAC Cell for improving the quality of education.

Provide guidance to students for project work and on latest technologies.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

The governance structure at KMIT stands as a testament to its commitment to realizing its vision and mission. Rooted in effective leadership and strategic foresight, KMIT's governance is finely tuned to propel the institution towards its desired outcomes.

Central to this approach is the continual refinement of processes and decision-making mechanisms. By fostering a culture of collaboration and transparency, KMIT ensures that all stakeholders are engaged in the pursuit of its vision. This inclusive approach not only enhances but also fosters a sense of ownership among faculty, staff, and students.

Furthermore, KMIT recognizes the dynamic nature of the educational landscape and the need for agility in its planning processes. As such, the institution remains adaptable, regularly reassessing its goals and priorities in response to

internal and external factors.

Moreover, KMIT's governance framework is underpinned by a commitment to excellence. Through rigorous performance evaluation and benchmarking against industry standards, the institution holds itself to the highest standards of quality and accountability.

In addition, KMIT places a premium on innovation and creativity in its pursuit of excellence. By fostering a culture of experimentation and risk-taking, the institution empowers its stakeholders to push the boundaries of knowledge and practice.

Ultimately, KMIT's governance model serves as a great model for success in the ever-evolving landscape of higher education. By staying true to its vision and mission, while remaining agile and innovative, KMIT continues to set the standard for excellence in education."

Upload any additional information	View File

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

KMIT's leadership manifests its effectiveness through a commitment to decentralized governance and participative management—a pivotal aspect of its institutional ethos. At its core, participative management embodies a collaborative framework where management representatives, the Principal, faculty, and students assume vital roles in decision-making processes.

Within this framework, management representatives diligently uphold quality standards and ensure the institution's welfare. Meanwhile, the Principal orchestrates academic and administrative endeavors in collaboration with Heads of Departments (HODs) and faculty members, fostering a culture of inclusivity and shared responsibility.

Participative management permeates every facet of KMIT, exemplified by the formation of administrative and academic

committees wherein students and faculty actively contribute. The Principal exercises oversight over academic matters and committee formations, while HODs exercise functional autonomy in steering departmental affairs. This autonomy extends to decision-making on departmental events, budget proposals, timetables, subject allocation, and the organisation of conferences, seminars, and workshops—each endeavor underpinned by collaborative faculty engagement.

Proposals stemming from diverse stakeholders undergo rigorous scrutiny in departmental meetings, ensuring comprehensive review before being forwarded to the appropriate authority. The Principal facilitates the consolidation of budget proposals, fostering dialogue to streamline allocation and avoid redundancies. In instances of duplicate proposals across departments, deliberations ensue to determine the most suitable recipient department.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

At KMIT we believe strategy serves as the blueprint guiding the achievement of goals through resource allocation. Typically, the senior leadership shoulders the responsibility of crafting strategy, whether through planned initiatives or emergent adaptations to environmental dynamics. At KMIT development is a continual journey marked by incessant improvement, facilitated by strategic perspectives. The initial phase of progress often begins with collaborative brainstorming sessions, wherein all stakeholders contribute ideas. Their insights are then integrated into the strategic planning process.

Tasks are categorized into short-term and long-term objectives, prioritized based on feasibility and available resources. Once endorsed by Academic Director, these plans are disseminated to respective departments for implementation. An illustrative example of effective strategic execution is the establishment of a goal aimed at achieving 100% placement rates.

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

The governing body of KMIT is constituted as per the AICTE norms. The body meets once in a year in general and few more times on the basis of any ad-hoc need. Decisions like introduction of new course, closure of existing courses, construction of new blocks, enhancement of physical facilities and other initiatives for improvement of the institution are taken in the form of society resolutions in the governing body. Governing body is the ultimate authority for any decision in the institution. Administrative set up of the institution is as per the organization chart of the organization. Governing body being the ultimate authority will have the Chairman of the society under the body. Board members are under Chairman. Principal is the academic and administrative head of the institution. Heads of the Department report to the Principal. Staff report to respective Heads of the Department/ Coordinators. Heads of Administration, Examination branch, Library and Physical Education report to the Principal. Coordinators are under Heads of the Department.

6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff

KMIT management conducts performance appraisals for all the

faculty members. To check quality of guidance, instruction, curriculum, scholarship, research, and systems. The goal of the college in assessing its faculty is to identify and correct inefficiencies and provide the necessary direction and guidance in support of each individual faculty member for assurance of quality and integrity. Faculty members are assessed in relation to the college's expectations of its faculty in the areas of faculty standards, program operations, and the college's policies on ethics and professional behavior. Assessment of program operations, focus upon orientation of the student, planning of student degree activities, course planning and delivery, and proper conduct of the program, reporting of student progress, and maintenance of quality standards.

Performance appraisal is taken up every year at KMIT.

Factors that normally are considered in the performance appraisal include, but are not limited to

- Knowledge of the job
- Quality of work
- Promptness in completing assignments
- Cooperation
- Initiative
- Reliability
- Attendance
- Judgment
- Acceptance of responsibility.

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling audit objections within a maximum of 200 words

The prime objective of institutional financial audit is to review the income and expenditures. Audit involves performing procedures for accountability in financial transactions. The institution prepares its budget every year as per the recurring

and non-recurring expenses requirements of all departments as well as functional committees and is submitted to the management for approval. The sanctioned budget from the management is then allocated to the departments under the categories such as consumables, lab equipment purchase, industrial visits, research and development activities etc. A predefined institutional procedure is followed by all the departments for various purchases and expenses.

To ensure proper utilization of funds and to minimize any discrepancy, the Institution conducts internal as well as external audit at regular intervals. Internal Audit mechanism is ongoing continuous process to check and verify all vouchers of transactions with reference to sanctioned budget. All recurring and non-recurring expenses are reflected in the internal audit report. Necessary comparative statements, Purchase Orders, Tax Invoice / Bills are verified. Auditor prepares its internal audit report mentioning the discrepancy observed during the audit (if any). The report, along with audit observations, is submitted by auditor for further explanation and corrective actions. External auditor conducts audit to determine the quality of financial operations

6.4.3 - Institutional strategies for mobilization of funds and the optimal utilization of resources

The following procedure is adopted for the utilization of resources. **Planning:** The laboratory in-charges propose laboratory-wise requirements. The expenses required for the departmental activities such as organizing co curricular and extracurricular activities are also included in the annual budget. **Budget Formulation:** An annual budget of the department is prepared and forwarded by all the HODs to the Principal for consent. After the review, The final consolidated budget is forwarded to the Management Committee for a final approval. **Allocation:** With the approval from the Head of the Institution fund will be released as per the necessity of the proposed expenses. Provision is also made for emergency expenditure. The sanctioned funds are utilized for the development of laboratories, procurement of books, national /international journals, staff salary, development and maintenance activities, etc. These are forwarded to the Principal through HOD for consideration and consent. Looking to the importance of the requirement, the Principal forwards the note to the Management for its final sanction. **Audit:** The Accounts Section of the Administrative office verifies the expenses against the sanctioned amount carried out under various institutional / departmental activities from the supporting documents and gives their remarks for the final settlement.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

Here's a breakdown of IQAC contributions:

The IQAC ensures that course files are thoroughly audited, ensuring that curriculum content is up-to-date, relevant, and meeting the required standards. This involves regular reviews, feedback mechanisms, and alignment with industry trends.

IQAC oversees the engagement of subject experts in curriculum design and delivery. This ensures that academic content is enriched with the latest advancements and best practices in respective fields.

IQAC manages mentoring files, ensuring that faculty mentorship programs are effectively implemented. This involves monitoring mentor-mentee interactions, providing support mechanisms, and tracking progress.

The IQAC spearheads project school initiatives aimed at enhancing practical learning experiences for students. This involves facilitating industry collaborations, providing resources, and evaluating project outcomes.

IQAC integrates imagineering school concepts into the academic framework. This fosters creativity, innovation, and interdisciplinary collaboration among students and faculty.

The IQAC oversees the activities of student clubs, ensuring they align with the institution's objectives and provide holistic development opportunities for students.

IQAC manages various events, including seminars, workshops, and conferences, aimed at enriching the academic environment and promoting knowledge exchange.

Overall, the IQAC's efforts contribute to the enhancement of the institution's overall quality assurance framework, ensuring that academic and extracurricular activities meet the highest standards and contribute to the holistic development of students.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

At KMIT, the IQAC diligently reviews its teaching-learning processes, operational structures, methodologies, and learning outcomes at regular intervals in accordance with established norms.

The IQAC conducts periodic reviews of teaching-learning processes and methodologies to ensure they remain effective and aligned with evolving educational standards and best practices.

It assesses the structural components of operations, including administrative processes, resource allocation, and infrastructure, to identify areas for improvement and optimization.

The IQAC evaluates the methodologies employed in teaching and learning, such as pedagogical approaches, use of technology, and assessment methods, to enhance engagement and effectiveness.

It scrutinizes the learning outcomes achieved by students across various programs and courses to gauge the effectiveness of teaching methodologies and identify areas needing enhancement.

The IQAC ensures that these reviews and assessments are conducted in accordance with established norms and guidelines set by regulatory bodies and accreditation agencies.

Incremental improvements resulting from these activities are meticulously recorded and documented by the IQAC. This documentation serves as evidence of the institution's commitment to continuous improvement and quality enhancement.

Feedback mechanisms are established to gather inputs from stakeholders, including students, faculty, and industry partners, which are then considered during the review process.

Based on the findings of these reviews, the IQAC develops action plans to address areas requiring improvement and implements strategies to enhance the overall teaching-learning experience.

INSTITUTIONAL VALUES AND BEST PRACTICES**7.1 - Institutional Values and Social Responsibilities****7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year**

KMIT prioritizes a safe and secure environment for its entire community. This collaborative effort involves the institute's security personnel, city police, fire department, and local communities. A professional security team, appointed from a licensed agency, provides 24/7 vigilance. For medical emergencies, a well-equipped first-aid room is readily available to both staff and students. Additionally, KMIT has incorporated a mandatory Gender Sensitization course into the curriculum for all branches, aligning with JNTU Hyderabad's guidelines.

KMIT champions gender equity through a mandatory Gender Sensitization course for all branches, aligning with JNTU Hyderabad's guidelines. This course is complemented by a committee constituted to empower the safety measures for female members. By organizing workshops and sensitization programs led by eminent psychologists and social workers, the committee works to promote a culture of respect and inclusivity, fostering a harmonious atmosphere on campus.

In addition to its focus on safety measures, the Women's Cell also addresses student grievances and concerns. Through counseling sessions, KMIT empowers students with vital knowledge on various safety aspects. These sessions cover topics such as safe two-wheeler riding practices, the importance of wearing lab aprons, and proper footwear for laboratory safety.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management	
KMIT prioritizes a clean and green campus by implementing a comprehensive waste management system. Strategically placed bins throughout departments and classrooms collect both wet and dry waste, ensuring regular collection mornings and evenings. This not only keeps the campus clean but also promotes environmental responsibility. Dried leaves and plant trimmings are cleverly diverted from landfills and composted, creating nutrient-rich manure that nourishes the campus greenery, further promoting sustainability. Our campus prioritizes responsible waste management by treating wastewater through a sedimentation process. Sewage water from across the campus is collected through an underground pipeline network. Sedimentation helps remove heavier particles from the wastewater. This initial treatment step paves the way for further processing or proper discharge according to environmental regulations. Our college prioritizes environmentally responsible practices for electronic waste (e-waste). We handle different e-waste categories effectively: Non-functional electronics: CPUs, hard disks, and laboratory equipment scrap are responsibly recycled through certified e-waste recyclers, ensuring safe and eco-friendly processing. Usable electronics: We extend the lifespan of functional computers by donating them to educational institutions or	

charities, promoting access to technology and reducing the digital divide.

- **Printer cartridges:** We minimize waste and promote resource conservation by utilizing external vendors for printer cartridge refilling services.
- **UPS batteries:** Whenever possible, we prioritize sustainability by recharging and repairing UPS batteries through qualified suppliers, reducing the need for replacements.

7.1.8 - Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities (within 200 words).

KMIT fosters an inclusive environment that celebrates diversity in all its forms, nurturing tolerance, harmony, and mutual respect among its community members. Through a range of initiatives, the institution promotes cultural, regional, linguistic, communal, socioeconomic, and other diversities, ensuring that every individual feels valued and supported.

One key initiative is the promotion of cultural exchange programs, where students and faculty from diverse backgrounds come together to share their traditions, languages, and perspectives on Traditional days conducted once in a semester. These programs not only foster cross-cultural understanding but also cultivate empathy and appreciation for different ways of life.

Kmit promotes linguistic diversity by offering multilingual support services and encouraging the use of diverse languages in academic and social settings. This inclusivity extends to regional and communal diversities, with the institution providing platforms for dialogue and collaboration among various communities. Additionally implements socioeconomic inclusion initiatives to ensure equal access to education and resources for all students, regardless of their financial background. Scholarships, financial aid programs, and mentorship opportunities are available to support students from underprivileged communities.

Overall, KMIT is committed to creating an environment where diversity is celebrated, differences are embraced, and every individual is empowered to thrive. Through these inclusive efforts, the institution cultivates a sense of belonging and unity, enriching the educational experience for all.

7.1.9 - Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

KMIT, through various programs and initiatives, we aim to instil an understanding of the values, rights, duties, and responsibilities enshrined in the constitution of our country.

Our academic curriculum includes modules dedicated to civic education and constitutional literacy. Students are introduced to fundamental concepts such as democracy, rule of law, human rights, and citizenship, enabling them to appreciate the importance of constitutional principles in shaping a just and equitable society.

We regularly organize workshops, seminars, and panel discussions featuring experts in constitutional law, political science, and social justice providing opportunities for students and employees to engage in meaningful dialogue, deepen their understanding of constitutional issues, and explore their rights and responsibilities as citizens. From voter registration drives to community service projects, we encourage students and employees to exercise their civic duties and contribute to the betterment of society.

As part of our commitment to holistic education, Through leadership programs, mentorship opportunities, and experiential learning activities, we empower students and employees to become responsible citizens who uphold the principles of justice, equality, and social responsibility. We have a comprehensive code of conduct that reflects our institutional values and aligns with constitutional principles. All members of our community are expected to uphold these standards of

behaviour, respecting the rights and dignity of others while fulfilling their own duties and responsibilities.

7.1.11 - Institution celebrates / organizes national and international commemorative days, events and festivals

It's a tradition in KMIT to celebrate Bathukammafloral festival every year predominantly as it is in in the Indian state of Telangana. The institution might organize a vibrant event where students, faculty, and staff come together to create and display Bathukamma floral arrangements. This could involve workshops on traditional floral artistry, dance performances showcasing Telangana culture, and a competition for the most

intricately designed Bathukammas. Traditional Telugu cuisine could be served, adding to the festive atmosphere.

On Independence Day and Republic Day national holidays, the KMIT institution organizes flag hoisting ceremonies followed by cultural programs and patriotic activities. Students might present skits, songs, or poetry readings highlighting the history and significance of India's struggle for independence and the establishment of the republic. Inviting guest speakers, such as veterans or historians, to share their insights can deepen understanding and appreciation of the country's heritage.

To celebrate International Women's Day, KMIT hosts a series of events aimed at promoting gender equality and empowering women. This might include panel discussions on women's rights and leadership, workshops on professional development and entrepreneurship for women, and screenings of films or documentaries showcasing inspirational stories of women achievers. Recognizing outstanding female faculty, staff, and students through awards or accolades can also be a meaningful gesture.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

- **Blood Donation camp conducted by NSS-KMIT was on 25/09/2023. It was in collaboration with Lions Club. It lasted for one day and was done in SAC Room. We had 119 donors. The donors were given place to rest for some time in the SAC Room. While the doctors were doing their work, the NSS volunteers went to all the classrooms to campaign about the camp. We did the campaigning also in KMCL. The donors were very honoured to be a part of such a good and**

thoughtful project.

- NSS-KMIT conducted a cloth donation drive from the days 28th October, 2023 to 11th November, 2023. The College Clothing Donation Drive aimed to collect gently used clothing items to assist individuals within and beyond our campus community. Students, faculty, and staff enthusiastically participated in the donation drive, demonstrating a strong sense of empathy and solidarity. From trendy fashion pieces to essential everyday wear, the variety of clothing donations received reflected the diversity and generosity of our college community. Donors contributed items ranging from casual attire to professional wear, catering to a wide range of needs. We collected old and used cloth which were still in good condition from the students and faculty and donated them in 2 orphanages and a few slums near that area. It was a success. 41 students participated in the drive. The people were very grateful and the volunteers had a great eye-opening experience.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

Keshav Memorial Institute of Technology (KMIT) has established itself as a premier institution committed to holistic education. One of its standout features is the Finishing School, designed to equip students with the necessary skills and attributes to excel in their professional lives.

The primary objective of the KMIT Finishing School is to bridge the gap between academic learning and industry requirements, ensuring students are well-prepared for the challenges of the corporate world.

Comprehensive training sessions covering communication skills, interpersonal skills, leadership development, and time management are conducted to enhance the employability quotient of students. Specialized training programs are organized to enhance technical skills relevant to the industry, ensuring

students are well-versed with the latest tools and technologies.

Personality grooming sessions focus on improving self-confidence, grooming, etiquette, and overall personality enhancement, preparing students to present themselves effectively in professional settings. Regular interactions with industry experts, workshops, seminars, and guest lectures provide students with insights into industry trends, expectations, and emerging technologies, thereby aligning their skill sets with industry requirements.

The Finishing School employs a structured methodology comprising workshops, seminars, mock interviews, group discussions, and hands-on training sessions to ensure maximum engagement and learning effectiveness.

7.3.2 - Plan of action for the next academic year

Organize regular blood donation camps in collaboration with local healthcare organizations to address blood shortages and support patients in need.

Host vibrant celebrations of regional festivals such as Bathukamma and Ratha Yatra, fostering cultural pride and inclusivity within our community.

Organize events and activities women and raise awareness about gender equality and women's rights.

Commemorate Unity Day to promote national unity and integrity.

Partner with advocacy groups to raise awareness about gender-based violence and support survivors through counseling and empowerment programs.

Collect and distribute clothing to underprivileged individuals and families

Essay and Debate Competitions to stimulate critical thinking

Collaborate with local schools, to organize clean-up drives and provide educational resources and support.

Launch voter registration drives and awareness campaigns to encourage civic participation and empower individuals to exercise their democratic rights.

Engage students in National Service Scheme activities, including community service projects and social awareness campaigns, promoting a culture of volunteerism and social responsibility.
