Action Taken Report:

- AS per the feedback analysis from above table, students need to be encouraged in following ways:
- Students are motivated to participate in Multi disciplinary Hackathons which will exhibit their innovation and working together in a team Students should concentrate more on Real time projects in latest technologies like

E Tabs, Revit, MIDAS to enhance their technical knowledge Students are encouraged to observe the various construction operations in the field to have a better understanding of the real-world situation.

- Students are advised to register for NPTEL & SWAYAM PRABHA courses available online in-order to upgrade their knowledge. Students must do internships in real-time projects given by diverse sectors in order to improve their practical expertise.
- Students are interested to participate in various technical competitions to exhibit their technical skills Students are guided to attend for placement training programmes which will improve their communication skills & soft skills etc.
- Students are encouraged to participate in various National & International conferences to upgrade their knowledge to the latest technologies/new materials
